Notes to the condensed consolidated interim financial statements

September 30, 2021

(Unaudited)

(Expressed in Canadian dollars, unless otherwise stated)

1. Corporate information

Maple Gold Mines Ltd. (the "Company" or "Maple Gold") is a company domiciled in Canada. Maple Gold was incorporated on June 3, 2010 under the Ontario Business Corporations Act and was continued under the Canada Corporations Act by articles of continuance dated June 22, 2011 and subsequently was continued under the British Columbia Business Corporations Act on January 7, 2021. The address of the Company's registered office is 2200-885 West Georgia Street, Vancouver, BC V6C 3E8. The Company is primarily involved in the exploration of mineral resources.

In March 2020, the World Health Organization declared a global pandemic due to the novel coronavirus (COVID-19). The COVID-19 outbreak and related mitigation measures have had an adverse impact on global economic conditions resulting in government response actions, social distancing, business closures and disruptions. Epidemic diseases, such as COVID-19, may have a significant impact on the Company. The duration of the pandemic and its impact on the Company's financial performance and position is an area of estimation uncertainty and judgment, which is continuously monitored and reflected in management's estimates.

2. Basis of presentation

(a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting. These condensed consolidated interim financial statements do not include all of the information and footnotes required by International Financial Reporting Standards ("IFRS") for full annual financial statements and should be read in conjunction with the annual financial statements for the year ended December 31, 2020, which have been prepared in accordance with IFRS, as issued by the International Accounting Standards Board.

The accounting policies used in the preparation of these condensed consolidated interim financial statements are the same as those applied in the Company's most recent annual financial statements for the year ended December 31, 2020 and reflect all the adjustments necessary for fair presentation in accordance with IFRS for the interim periods presented.

These condensed consolidated interim financial statements were approved and authorized for issuance by the Board of Directors of the Company on November 10, 2021.

(b) Basis of preparation and consolidation

These condensed consolidated interim financial statements have been prepared on a historical cost basis. The presentation currency is the Canadian dollar; therefore all amounts are presented in Canadian dollars unless otherwise noted.

These condensed consolidated interim financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control exists when the Company has power over an investee, exposure or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the Company's returns.

On January 11, 2021, the Company incorporated a wholly owned subsidiary, MGM Douay Gold Project Ltd, under the Canada Business Corporations Act. MGM Douay Gold Project Ltd is the Company's only subsidiary.

Maple Gold Mines Ltd.

2. Basis of presentation (continued)

(c) Critical accounting judgments and estimates

The preparation of the financial statements in conformity with IFRS requires management to select accounting policies and make estimates and judgments that may have a significant impact on the financial statements. Estimates are continuously evaluated and are based on management's experience and expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes may differ from these estimates. The Company's critical accounting judgements and estimates were presented in Note 2(c) of the audited annual financial statements for the year ended December 31, 2020 and have been consistently applied in the preparation of these condensed consolidated interim financial statements. No new judgements and estimates were applied for the periods ended September 30, 2021 and 2020.

(d) Accounting policies not yet adopted

Amendments to IAS 1 – Classification of Liabilities as Current or Non-current

The amendments to IAS 1 affect only the presentation of liabilities as current or non-current in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items. The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services. The amendments are applied retrospectively for annual periods beginning on or after January 1, 2023, with early application permitted. The Company is currently evaluating the impact of this adoption and it is expected not to materially impact the financial statements.

5. Exploration and evaluation expenses (continued)

(a) Douay and Joutel

On February 2, 2021 the Company and Agnico Eagle Mines Limited ("Agnico") entered into the Joint Venture Agreement ("JV Agreement") pursuant to which the parties have agreed to form a 50-50 joint operation which will combine the Company's Douay Gold Project and Agnico's Joutel Project into a consolidated joint property package. The Douay Gold Project and Joutel Project (the latter hosting Agnico's past-producing Telbel mine) are contiguous properties located in the James Bay subregion of Northern Quebec.

The terms and conditions of the JV Agreement, provide (i) Agnico will fund the joint operation \$16,000,000 in exploration expenses, and fund \$2,000,000 directly to the Company over a four-year period; (ii) the Company will fund \$2,000,000 in exploration expenses over the same four-year period and contribute Property and Equipment with an approximate value of \$40,000 located at the Douay Gold Project (iii) Agnico and the Company in year 1 will jointly fund an additional \$500,000 in exploration of VMS targets on the western portion of the Douay Gold Project; and (iv) Agnico and the Company will each be granted a 2% Net Smelter Returns Royalty ("NSR") on the property that they contribute to the joint operation, each with aggregate buyback provisions of \$40 million.

Committed funding to the joint operation from both operators is expected to occur as follows, \$4,000,000 in each of years one and two, \$5,000,000 in year three and \$5,500,000 in year four.

Amounts received by the Company from Agnico are deferred to the extent that the Company has future committed funding performance obligations to the joint operation. The deferred amounts are recognized as other income as the Company fulfills its funding performance obligation by incurring exploration and evaluation expenditures at the joint operation.

In March 2021, the Company received \$250,000 from Agnico with regard to Agnico's year 1 contribution to the Company, in accordance with the terms outlined above. During the three and nine months ended September 30, 2021, \$Nil and \$250,000 of this contribution was incurred on qualified exploration expenditures and, as at September 30, 2021, \$Nil is recorded as a deferred gain on the condensed consolidated interim statement of financial position.

(b) Eagle

On July 19, 2021, the Company announced that it had entered into an option agreement with Globex Mining Enterprises Inc. ("Globex") to acquire a 100% interest in the Eagle Mine Property ("Eagle") in Quebec. The Company can earn a 100% interest in Eagle by completing payments to Globex totaling \$1.2 million in cash and shares over five years and incurring exploration expenditures on Eagle of \$1.2 million over a four year period as outlined in the table below.

Date	Cash payments		Shares	Issued (Note 10(b)(ii))	Cumulative

The flow-through shares were issued at a premium of \$0.055 per flow-through share, with the total flow-through share premium liability related to the 8,700,000 flow-through shares issued being \$478,500, representing the Company's obligation to spend the \$1,218,000 on eligible expenditures. The liability was fully amortized as of December 31, 2020.
- (ii) On March 26, 2019, the Company completed a non-brokered private placement for gross proceeds of \$2,300,000 through the issuance of 18,400,000 flow-through shares at a price of \$0.125 per flow-through share (note 10(b)(i)). The flow-through shares were issued at a premium of \$0.025 per flow-through share, with the total flow-through share premium liability related to the 18,400,000 flow-through shares issued being \$460,000, representing the Company's obligation to spend the \$2,300,000 on eligible expenditures. The liability was fully amortized as of December 31, 2020.

7. Payable to Revenu Quebec

Revenu Quebec has conducted audits of the Company's mineral exploration tax credit filings for the 2011 to 2019 tax years. Revenu Quebec has disallowed certain amounts that the Company believes are claimable qualifying expenditures. The Company intends to defend its filing positions and the Company has filed notice of objections with Revenu Quebec's Appeals Division for each of the years 2012 to 2014, although there is no way of knowing to what extent the Company will be successful in its objections.

(a) *Authorized*

Unlimited common shares without par value

(b) *Share issuances*

Year ended December 31, 2021

- (i) On April 30, 2021 the Company issued 284,002 common shares on the vesting of 284,002 restricted share units.
- (ii) On July 28, 2021 the Company issued 128,400 common shares with a deemed value of \$50,000 with respect to the Eagle option agreement (Note 5(b)).

Year ended December 31, 2020

- (iii) On July 31, 2020 and August 10, 2020, the Company closed the first and second tranches, respectively, of a non-brokered private placement of 27,941,173 common shares at a price of \$0.17 per share for gross proceeds of \$4,750,000. In connection with the placement, the Company incurred a total of \$92,579 in cash share issuance costs.
- (iv) On October 13, 2020, the Company issued 25,838,821 units of the Company (collectively, the "Units") to Agnico in a non-brokered private placement at a price of \$0.239 per Unit for total consideration of approximately \$6,175,478 (the "Agnico Strategic Investment"). In connection with the placement, the Company incurred a total of \$36,376 in cash share issuance costs.

Each Unit is comprised of one common share and one warrant (a "Unit Warrant"). Each Unit Warrant entitles the holder to acquire one common share at a price of \$0.34 for a period of three years from issuance, subject to acceleration of the expiry date, at the option of Maple Gold, in the event the common shares trade on the Exchange above \$0.60 for a period of twenty consecutive trading days at any time following two years from the closing date of the Agnico Strategic Investment. Consideration allocated to the 25,838,821 Unit Warrant's was determined using the residual method with the value of the common shares being determined using market price with the balance of the \$6,175,478 allocated to the Unit Warrant.

On October 13, 2020, in connection with the Agnico Strategic Investment, the Company and Agnico entered into the Agnico Investor Rights Agreement pursuant to which Agnico was granted certain rights, provided Agnico maintains certain ownership thresholds in Maple Gold, including: (i) the right to participate in equity financings in order to maintain its pro rata ownership in the Company at the time of such financing or acquire up to a 19.90% ownership interest in the Company; and (ii) the right (which Agnico has no present intention of exercising) to nominate one person (and in the case of an increase in the size of the Board to eight or more directors, two persons) to the Board of Directors.

- (v) On December 30, 2020, the Company closed a bought deal offering of 27,800,000 common shares at a price of \$0.36 per common share for gross proceeds of \$10,008,000. In connection with the prospectus offering, the Company incurred a total of \$1,149,666 in cash share issuance costs, including \$565,134 as a commission to the underwriter.

10. Share capital and reserves (continued)*(c) Share based compensation plans*

On December 17, 2020, the Company adopted a rolling Equity Incentive Plan (the "Plan"), pursuant to which eligible directors, officers, employees, and consultants may be granted stock options, restricted share units ("RSUs") and deferred share units ("DSUs"). The aggregate maximum number of common shares available for issuance from treasury underlying RSUs and DSUs under the Plan is 12,000,000 common shares (9,000,000 for RSUs and 3,000,000 for DSUs). The Plan also includes a purchase program for eligible employees to purchase Program Shares.

The aggregate number of Common Shares that may be subject to issuance under the Plan, together with any other securities based compensation arrangements of the Company, shall not exceed 10% of the Company's issued and outstanding common shares at the time of the grant.

The following table summarizes share based compensation for the period:

10. Share capital and reserves (continued)

(c) Share based compensation plans (continued)

(i) Stock options (continued)

The fair values of the share options granted during the three and nine months ended September 30, 2021 and 2020 were estimated using the Black-Scholes option valuation model with the following weighted average assumptions:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
	Option grants	Option grants	Option grants	Option grants
Risk-free interest rate	N/A	0.38%	0.40%	0.41%
Expected dividend yield	N/A	nil	nil	nil
Stock price volatility	N/A	86%	96%	86%
Expected life in years	N/A	5	5	5
Weighted average grant date fair value	N/A	\$0.09	\$0.24	\$0.06

The expected volatility assumption is based on the historical and implied volatility of the Company's common shares. The risk-free interest rate assumption is based on the Government of Canada benchmark bond yields and treasury bills with a remaining term that approximates the expected life of the stock options.

(ii) Restricted Share Units

RSUs are granted under the Company's Equity Incentive Plan and are accounted for based on the market value of the underlying shares on the date of grant and vest as determined by the Board of Directors. These units are exercisable into one common share once vested, for no additional consideration. They can be redeemed in cash, at the Company's discretion.

On March 3, 2021, the Company granted 3,175,000 RSUs to its directors, officers and employees and subject to vesting provisions of one-third on April 30, 2021, one-third on March 3, 2022 and one-third on March 3, 2023.

1,452,000 RSUs were determined to be equity settled awards. The share-based payment related to these equity settled awards was calculated as \$392,040, to be amortized over the unit vesting period.

1,723,000 RSUs were determined to be cash settled awards. For cash-settled awards the liability is marked to market using the quoted market price of the underlying common shares at the end of each reporting period. As of September 30, 2021, the share-based payment related to these cash settled awards was calculated as \$488,314, to be amortized over the unit vesting period.

The Company did not issue RSUs prior to 2021.

The continuity of the number of RSUs issued and outstanding is as follows:

	Number of RSUs
Outstanding, December 31, 2020	-
Granted	3,175,000
Vested	(858,333)
Forfeited	(60,000)

10. Share capital and reserves (continued)*(c) Share based compensation plans (continued)**(ii) Deferred Share Units*

DSUs are granted under the Company's Equity Incentive Plan and are accounted for based on the market value of the underlying shares on the date of grant and vest immediately. These units are exercisable into one common share for no additional consideration. In the event a participant resigns or is otherwise no longer an eligible participant during the period, then any grant of DSUs that are intended to cover such period, the participant will only be entitled to a pro-rated DSU payment. These units can be redeemed in cash, at the Company's discretion. The Company did not issue DSUs prior to 2021.

On March 3, 2021, the Company granted 550,000 DSUs to its directors and these units vested in full at the grant date.

300,000 DSUs were determined to be equity settled awards. The share-based payment related to these equity settled awards was calculated as \$81,000, which was expensed on March 3, 2021.

250,000 DSUs were determined to be cash settled awards. For cash-settled awards the liability is marked to market using the quoted market price of the underlying common shares at the end of each reporting period. The share-based payment related to these cash settled awards was calculated as \$(35,000) for the three-month period ended September 30, 2021 and \$71,250 for the nine-month period ended September 30, 2021.

As at September 30, 2021 550,000 DSUs remain outstanding.

(d) Share purchase warrants

The continuity of the number of share purchase warrants is as follows:

	Warrants outstanding	Exercise price \$
Outstanding, December 31, 2019	31,034,150	0.40
Exercised	(1,000)	0.40
Issued	25,838,821	0.34
Outstanding, December 31, 2020 and September 30, 2021	56,871,971	0.37

As at September 30, 2021, the expiration date of the share purchase warrants is as follows:

Expiry date	Number of warrants	Exercise price \$

13. Segmented information

The Company's operations comprise a single reporting operating segment engaged in mineral exploration in Canada. As the operations comprise a single reporting segment, amounts disclosed in the financial statements also represent segment amounts.

14. Financial instruments

The Company's financial instruments consist of cash and cash equivalents, deposits, accounts payable and accrued liabilities and loan payable. The fair values of these financial instruments approximate their carrying values, unless otherwise noted.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following summarizes fair value hierarchy under which the Company's financial instruments are valued:

- Level 1 – fair values based on unadjusted quoted prices in active markets for identical assets or liabilities;

Maple Gold Mines Ltd.

Notes to the condensed consolidated interim financial statements

September 30, 2021

(Unaudited)

(Expressed in Canadian dollars, unless otherwise stated)

14. Financial instruments (continued)

- Level 2 – fair values based on inputs that are observable for the asset or liability, either directly or indirectly; and
- Level 3 – fair values based on inputs for the asset or liability that are not based on observable market data.

As at September 30, 2021 and 2020, no financial instruments were measured at fair value.

No transfer occurred between the levels during the period.

The Company's financial instruments are exposed to credit risk, liquidity risk, and market risks, which include currency risk and interest rate risk.

(a) Credit risk

Credit risk is the risk that a third party fails to discharge its obligations under the terms of the financial contract and causes a financial loss for the Company. The Company's credit risk is attributable to its cash and cash equivalents and deposits. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and cash equivalent balances in highly rated Canadian financial institutions. The Company considers the risk of loss associated with cash and cash equivalents to be low.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure.

Accounts payable and accrued liabilities are due within twelve months of the statement of financial position date.

(c) Market risk

This is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Significant market risks to which the Company is exposed are as follows:

(i) Foreign currency risk

The Company is exposed to currency risk by having balances and transactions in currencies that are different from its functional currency (the Canadian dollar). As at September 30, 2021 and 2020 and throughout the respective periods, the Company held immaterial balances in foreign currencies. Foreign currency risk is considered to be minimal.

(ii) Interest rate risk

Interest rate risk is the risk arising from the effect of changes in prevailing interest rates on the Company's financial instruments. The Company's exposure to interest rate risks is limited to potential increases or decreases on the interest rate offered on cash and cash equivalents held at chartered Canadian financial institutions, which would result in higher or lower relative interest income. This risk is considered to be minimal.
