The accompanying notes to the unaudited condensed interim financial statements are an integral part of these statements.

1. Nature of operations and going concern

Aurvista Gold Corporation (the "Company" or "Aurvista") is a company domiciled in Canada. Aurvista was incorporated on June 3, 2010 under the Ontario Business Corporations Act and was continued under the Canada Corporations Act by articles of continuance dated June 22, 2011. The address of the Company's registered office is 250 Place d'Youville, 2e etage, Montreal, Quebec, H2Y 2B6. The Company is primarily involved in the exploration of mineral resources.

These unaudited condensed interim financial statements have been prepared on the basis of the going concern assumption, in other words, the Company will be able to realize its assets, discharge its liabilities and pursue its mining exploration program in the normal course of operations. The Company has working capital at June 30, 2016 of $236,163. Management is of the opinion that the Company will be able to meet its current exploration plan, which are approximately $800,000, and can keep its properties in good standing for at least the next twelve months but can return to full scale operations only with its ability to raise significant equity financing or sell assets in the near term. Management believes that it will raise an additional financing which will resolve the medium term horizon of the going concern assumption, but further equity financings are planned to resolve going concern issues for the foreseeable future. Even if the Company has been successful in doing so in the past, there is no assurance that it will manage to obtain additional financing in the future.

The Company now has working capital but has not yet determined whether its mining properties contain mineral deposits that are economically recoverable and has an accumulated deficit of $33,356,545. These conditions, raise doubts regarding the Company's ability to raise financing and to continue as a going concern.

The Company's unaudited condensed interim financial statements do not include any adjustments to the assets carrying amount, to the expenses presented and to the reclassification of the balance sheet items that could be necessary should the Company be unable to continue its operations.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of August 25, 2016, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2015. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2016 could result in restatement of these unaudited condensed interim financial statements.

New standards and interpretations not yet adopted

IFRS 9 – Financial instruments ("IFRS 9") was issued by the IASB in October 2010 and will replace IAS 39 Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. IFRS 9 is effective for annual periods beginning on or after January 1, 2018.

(Expressed in Canadian dollars)

3. Change in accounting policy

During the fourth quarter of the year ended December 31, 2015, the Company changed its accounting policy for mining properties and exploration and evaluation assets to recognize these costs in the statements of loss and comprehensive loss in the period incurred, as permitted under IFRS 6, Exploration for and Evaluation of Mineral Resources. Management judges that the change in accounting policy will result in clearer, more relevant and reliable financial information.

The previous accounting policy was that mining properties and exploration and evaluation expenditures were capitalized in respect of each identifiable area of interest, once the legal right to explore had been acquired, until the technical feasibility and commercial viability of extracting a mineral resource are demonstrated.

The impact of this change on the previously reported financial statements for the three and six months ended June 30, 2015 is as follows:

On September 4, 2015, the Company entered into an agreement to factor its 2014 claims for Quebec Exploration Tax Credits. The 2014 credits, originally estimated at $300,000, were filed as part of its Quebec tax return to claim $367,582. The Company factored $275,600 of its claim, which was not to exceed 75% of the claim, less fees of $16,480 and prepaid nine months of interest of $37,206 based on annual interest of 18%.

Prior to December 31, 2015, the Quebec Exploration Tax Credits were received by the corporation that loaned the Company the funds. As a result, the loan payable was repaid during the prior year and the excess of the Quebec Exploration Tax Credits received over the repayment amount of $114,165 was setup in other receivables. This amount was received by the Company during the period ended June 30, 2016.
