## **1. Corporate information and going concern**

Maple Gold Mines Ltd. (the "Company" or "Maple Gold") is a company domiciled in Canada. Maple Gold was incorporated on June 3, 2010, under the Ontario Business Corporations Act and was continued under the Canada Corporations Act by articles of continuance dated June 22, 2011, and subsequently was continued under the British Columbia Business Corporations Act on January 7, 2021. The address of the Company's registered office is 2200-885 West Georgia Street, Vancouver, BC V6C 3E8. The Company is primarily involved in the exploration of mineral properties in Quebec, Canada.

These condensed consolidated interim financial statements have been prepared based on accounting principles applicable to a going concern, which contemplates the realization of assets and discharge of liabilities and commitments in the normal course of business for the foreseeable future.

The Company is a resource exploration stage company that does not have production activities that generate revenue, its current funding sources consist of proceeds from the issuance of common shares of the Company. The Company believes that it has adequate financial resources to maintain its minimum obligations; however, the Company's ability to continue as a going concern is dependent on its ability to obtain additional sources of financing to successfully explore and evaluate its mineral properties and, ultimately, to achieve profitable operations. As such, there is a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern, and any such adjustments may be material.

## **2. Basis of presentation**

### *(a) Statement of compliance*

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting, of IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB"). These condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements for the years ended December 31, 2024 and 2023, which have been prepared in accordance with IFRS.

These condensed consolidated interim financial statements follow the same accounting policies and methods of application as the most recent audited consolidated financial statements of the Company.

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on May 13, 2025.

### *(b) Basis of preparation and consolidation*

These condensed consolidated interim financial statements have been prepared on a historical cost basis. The presentation currency is the Canadian dollar; therefore, all amounts are presented in Canadian dollars unless otherwise noted.

These condensed consolidated interim financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control exists when the Company has power over an investee, exposure or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the Company's returns.

## 2. Basis of presentation (continued)

### (b) Basis of preparation and consolidation (continued)

On January 11, 2021, the Company incorporated a wholly owned subsidiary, MGM Douay Gold Project Ltd, under the Canada Business Corporations Act. MGM Douay Gold Project Ltd. is the Company's only subsidiary.

### (c) Critical accounting judgments and estimates

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to select accounting policies and make estimates and judgments that may have a significant impact on the condensed consolidated interim financial statements. Estimates are continuously evaluated and are based on management's experience and expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes may differ from these estimates. The Company's critical accounting judgements and estimates were presented in Note 2(c) of the audited annual financial statements for the years ended December 31, 2024, and 2023, and have been consistently applied in the preparation of these condensed consolidated interim financial statements. No new judgements and estimates were applied for the period ended March 31, 2025.

### (d) Accounting policies issued but not yet adopted

#### *Amendments to IFRS 9, Financial Instruments, and IFRS 7, Financial Instruments: Disclosures*

In May 2024, the IASB issued amendments to update the classification and measurement requirements in IFRS 9 and related disclosure requirements in IFRS 7 as follows:

- Clarified the recognition and derecognition date of certain financial assets and liabilities and amended the requirements related to settling financial liabilities using an electronic payment system.
- Clarified how to assess the contractual cash flow characteristics of financial assets in determining whether they meet the solely payments of principal and interest criteria.
- New disclosures for certain instruments with contractual terms that can change cash flows (including instruments with features linked to environmental, social and corporate governance targets).
- Additional disclosure requirements for financial instruments with contingent features that do not relate directly to basic lending risks and costs.
- Amended disclosures relating to equity instruments designated at fair value through other comprehensive income.

The amendments are effective for annual reporting periods beginning on or after January 1, 2026, with early application permitted for certain provisions. The Company is currently assessing the effect of these amendments to its financial statements but has not yet adopted.

#### *IFRS 18, Presentation and disclosure in financial statements*

In April 2024, the IASB issued IFRS 18, *Presentation and disclosure in financial statements* ("IFRS 18"), which replaces IAS 1, *Presentation of financial statements*. IFRS 18 introduces a specified structure for the income statement by requiring income and expenses to be presented in three defined categories (operating, investing and financing), and by specifying certain defined totals and subtotals. Where company-specific measures related to income statement disclosure are provided ("management-defined performance measures"), such as certain non-GAAP measures, IFRS 18 requires additional disclosure around those management-defined performance measures in the financial statements. IFRS 18 also provides additional guidance on principles of aggregation and disaggregation which apply to

the primary financial statements and the notes. IFRS 18 does not affect the recognition and measurement of items in the financial statements, nor does it affect which items are classified in other comprehensive income and how these items are classified.

The standard is effective for reporting periods beginning on or after January 1, 2027, including for interim financial statements. Retrospective application is required and early application is permitted. The Company is currently assessing the effect of this new standard on its financial statements but has not yet adopted it.

On February 2, 2021, the Company and Agnico Eagle Mines Limited ("Agnico Eagle") entered into a joint venture agreement (the "JV Agreement") pursuant to which the parties agreed to form a 50-50 joint operation, which combined the Company's Douay Gold Project ("Douay") and Agnico Eagle's Joutel Gold Project ("Joutel") into a consolidated joint property package. Douay and Joutel (the latter hosting Agnico Eagle's past-producing Joutel mine complex) are contiguous properties located in the James Bay subregion of Northern Quebec.

On December 20, 2024, the Company and Agnico Eagle finalized a definitive conveyance and option agreement pursuant to which the parties completed a transaction (the "Douay / Joutel Transaction") resulting in the Company obtaining 100% legal title in Douay and Joutel. Under the terms of the Douay / Joutel Transaction, the Company granted Agnico Eagle a 1.0% net smelter return royalty over Douay and Joutel and an exclusive option to reacquire a 50% interest in Douay and Joutel at any time from the closing date until 90 days following receipt by Agnico Eagle of a decision made by the Company to construct a mine complex on Douay and/or Joutel, based upon delivery of an NI 43-101 compliant feasibility or pre-feasibility technical report that demonstrates a \$300 million net present value. Additionally, should Agnico Eagle exercise their option, Agnico Eagle would be required to pay to the Company the sum of (i) 200% of the amount of specified project expenditures incurred by the Company following the closing date of the Douay / Joutel Transaction and (ii) \$12,000,000. The option is accounted for as a derivative instrument at FVTPL and had a nil fair value as of March 31, 2025 (December 31, 2024 - \$nil).

As a result of the Douay/ Joutel Transaction, the JV Agreement was terminated and the Company extinguished a pre-existing receivable amount of \$510,758 due from Agnico Eagle relating to under-funded contributions by Agnico Eagle for their share of partnership costs under the JV Agreement at the time of closing the Douay / Joutel Transaction. The Company also incurred \$385,600 in transaction costs relating to the Douay / Joutel Transaction. Both the forgiveness of the pre-existing receivable balance and the transaction costs, net of \$9,364 of property and equipment assumed, have been expensed to exploration expenditures on the Company's consolidated statement of loss and comprehensive loss during the year ended December 31, 2024.

*(b) Eagle*

On July 19, 2021, the Company announced that it had entered into an option agreement with Globex Mining Enterprises Inc. ("Globex") to acquire a 100% interest in the Eagle Mine Property ("Eagle") in Quebec. The Company can earn a 100% interest in Eagle by completing payments to Globex totaling \$1.2 million in cash and shares over a five-year period and incurring exploration expenditures on Eagle of \$1.2 million over a four-year period as outlined in the table below:

Globex will retain a 2.5% Gross Metal Royalty ("GMR") which is subject to a right of first refusal and can be reduced to a 1.5% GMR in consideration for a cash payment of \$1.5 million.

*(c) Morris*

On July 22, 2021, the Company acquired a 100% interest in 34 mining claims (the "Morris Claims") located in the Morris Township, Quebec by paying \$5,000 and issuing a 1% NSR in respect of the Morris Claims. The Company subsequently staked additional claims that expanded the Morris property to a current total of 70 mining claims.

During the year ended December 31, 2024, the Company extended its lease agreement for its office space, which extended the term of the lease by two years from December 31, 2024 to December 31, 2026. As a result of the lease extension, the Company recognized an addition of \$249,459 addition to its lease liability with an offsetting right-of-use asset recognized in property and equipment (Note 7). This was partially offset by a \$71,372 derecognition of the old lease liability, for a net addition of \$178,087.

**9. Share capital and reserves***(a) Authorized*

The Company is authorized to issue unlimited common shares without par value.

*(b) Share issuances*Three-month period ended March 31, 2025:

(i) There were no shares issued during the three months ended March 31, 2025

Year ended December 31, 2024:

- (ii) On June 21, 2024, the Company closed a non-brokered private placement of 33,821,842 flow-through common shares at a price of \$0.12 per share for gross proceeds of \$4,058,621. In connection with the flow-through share placement, the Company incurred a total of \$51,843 in cash share issuance costs.
- (iii) On July 11, 2024, the Company issued 981,693 common shares with a deemed value of \$75,000 with respect to the Eagle option agreement (Note 6(b)).
- (iv) On November 14, 2024, the Company closed a brokered private placement (collectively the "Offering") consisting of:
  - i. 35,935,000 flow-through common shares at a price of \$0.08 per share for gross proceeds of \$2,874,800; and
  - ii. 42,468,538 non-flow-through units of the Company (the "NFT Units") at a price of \$0.065 per NFT Unit for gross proceeds of \$2,760,455. Each NFT Unit consists of one common share of the Company and one-half of one common share purchase warrant of the Company. Each whole warrant (the "Warrants") entitles the holder to acquire one common share of the Company at a price of \$0.10 until November 14, 2027 (Note 9d).

*(c) Share based compensation plans*

On December 17, 2020, the Company adopted a rolling Equity Incentive Plan (the "Plan"), pursuant to which eligible directors, officers, employees, and consultants may be granted stock options, RSUs and deferred share units ("DSUs"). The Plan also includes a purchase program for eligible employees to purchase program shares.

The aggregate number of common shares that may be subject to issuance under the Plan, together with any other securities-based compensation arrangements of the Company, shall not exceed 10% of the Company's issued and outstanding common shares at the time of the grant.

The Company uses the fair value method of accounting for all share-based payments to directors, officers, employees and others providing similar services. There were no stock options granted during the three months ended March 31, 2025. The fair value of the share options granted for the year ended December 31, 2024, were estimated using the Black-Scholes option pricing model with the following weighted average assumptions:

	<b>2024</b>
	<b>Option grants</b>
Risk-free interest rate	<b>3.63%</b>
Expected dividend yield	<b>nil</b>
Stock price volatility	<b>83%</b>
Expected life in years	<b>5</b>
Weighted average grant date fair value	<b>\$ 0.04</b>

The expected volatility assumption is based on the historical and implied volatility of the Company's common shares. The risk-free interest rate assumption is based on the Government of Canada benchmark bond yields and treasury bills with a remaining term that approximates the expected life of the stock options. For all grants, the assumed forfeiture rate was nil.

#### (ii) Restricted Share Units

RSU's are granted under the Plan and are accounted for based on the market value of the underlying shares on the date of grant and vest as determined by the Board of Directors. These units are exercisable into one common share once vested, for no additional consideration. They may be redeemed in cash, at the Board of Director's discretion.

<b>Outstanding, March 31, 2025</b>	<b>104,331</b>	<b>2,187,338</b>	<b>2,291,669</b>

During the year ended December 31, 2024, 1,841,667 shares were issued as a result of the vesting of RSUs, resulting in \$231,335 being reclassified from share-based payments reserve to share capital on the consolidated statements of changes in equity.

On April 29, 2024, the Company granted 3,250,000 RSUs to its directors, officers and employees and subject to vesting provisions of one-third on April 29, 2024, one-third on April 29, 2025, and one-third on April 29, 2026.

*(iii) Deferred Share Units*

DSUs are granted under the Company's Equity Incentive Plan and are accounted for based on the market value of the underlying shares on the date of grant and vest immediately. These units are exercisable into one common share for no additional consideration. In the event a participant resigns or is otherwise no longer an eligible participant during the period, then any grant of DSUs that are intended to cover such period, the participant will only be entitled to a pro-rated DSU payment. These units can be redeemed in cash, at the Company's discretion. The Company did not issue DSUs prior to 2021.

A summary of DSU activity during the period is as follows:

	DSUs

In November 2024, the Company issued 21,234,269 Warrants in connection with the Offering. Each Warrant entitles the holder to acquire one common share of the Company at a price of \$0.10 per common share until November 14, 2027. Warrants are valued using the residual value method and accordingly Warrants issued as part of the Offering are valued at \$nil.

In connection with the November 2024 Offering the Company issued 4,135,370 non-transferable compensation warrants (the "Compensation Warrants") of the Company. Each Compensation Warrant entitles the holder to acquire one common share of the Company ("Compensation Share") at a price of \$0.065 per Compensation Share until November 14, 2027. The fair value of the Compensation Warrants was \$98,817 based on the Black-Scholes model using the following assumptions:

**13. Segmented information**

The Company's operations comprise a single reporting operating segment engaged in mineral exploration in Canada. As the operations comprise a single reporting segment, amounts disclosed in the financial statements also represent segment amounts.

**14. Financial instruments**

The Company's financial instruments consist of cash and cash equivalents, marketable securities, prepaid expenses and deposits, accounts payable and accrued liabilities and loan payable. The fair values of these financial instruments approximate their carrying values, unless otherwise noted.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following summarizes fair value hierarchy under which the Company's financial instruments are valued:

- Level 1 – fair values based on unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – fair values based on inputs that are observable for the asset or liability, either directly or indirectly; and

---

#### 14. Financial instruments (continued)

- Level 3 – fair values based on inputs for the asset or liability that are not based on observable market data.

No transfer occurred between the levels during the period.

The Company's financial instruments are exposed to credit risk, liquidity risk, and market risks, which include currency risk and interest rate risk.

##### (a) Credit risk

Credit risk is the risk that a third party fails to discharge its obligations under the terms of the financial contract and causes a financial loss for the Company. The Company's credit risk is attributable to its cash and cash equivalents and deposits. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and cash equivalent balances in highly rated Canadian financial institutions. The Company considers the risk of loss associated with cash and cash equivalents to be low.

##### (b) Liquidity risk

Liquidity risk is the risk that the Company may be unable to meet its financial obligations as they fall due or that it will be required to meet them at excessive cost. The Company reviews its working capital position regularly to ensure there is sufficient capital in order to meet short-term business requirements, after taking into account the Company's holdings of cash. The majority of the Company's cash is invested in business accounts, which are available on demand. The Company manages its liquidity risk mainly through raising funds from private placements. The Company's accounts payable and accrued liabilities are due within twelve months of the statement of financial position date.

The Company's operating cash requirements are continuously monitored and adjusted as input variables change. As these variables change, liquidity risks may necessitate the need for the Company to pursue equity issuances, obtain project or debt financing, or enter into joint arrangements. There is no assurance that the necessary financing will be available in a timely manner.

##### (c) Market risk

This is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Significant market risks to which the Company is exposed are as follows:

###### (i) Foreign currency risk

The Company is exposed to currency risk by having balances and transactions in currencies that are different from its functional currency (the Canadian dollar). As at March 31, 2025 and December 31, 2023 and throughout the respective periods, the Company held immaterial balances in foreign currencies. Foreign currency risk is considered to be minimal.

###### (ii) Interest rate risk

Interest rate risk is the risk arising from the effect of changes in prevailing interest rates on the Company's financial instruments. The Company's exposure to interest rate risks is limited to potential increases or decreases on the interest rate offered on cash and cash equivalents held at chartered Canadian financial institutions, which would result in higher or lower relative interest income. This risk is considered to be minimal.
